

# **IRRT - Intermediate Referee Recertification Training**

## **Module "B" Data Sheet**

We need your feedback regarding how long it takes you to complete each presentation and any comments (or not) that you wish to make (pro or con) regarding either the materiel presented or the on-line process.

Record below how long it takes you to do each presentation. Bring any questions that you have on the presentation materials to this Module "A" session, which will highlight and review the material in this on-line training. This is not going to be a short process .... it could take you up to 2-3 hours of concentrated effort to complete these training presentations.

The benefits of this method of training are that:

- 1) you can do this in piece-meal fashion, i.e. it does not all have to be completed at one time
- 2) you can go back and go over it again if you have some difficulty in first understanding a presentation.
