

# GAME MANAGEMENT

## Referee Options

# Expectations

- This module is NOT intended to be a lecture or even a lesson on how to manage a game.
- This module IS intended to be an interactive discussion about different game scenarios and the options that are available to the referee team.
- By the end of this presentation, you will be able to utilize some of the options brought out in the discussion

# OPTIONS

- Coaches teach players options for set plays and common game situations
- Players chose these options based on their experience and comfort with the options
- Referees must realize that these options exist and use the player's options to help them decide on their options as a referee

# On-Line Presentation

- Review each video and answer questions as they relate to the two scenarios.
- Print out each Question Sheet.
- Write in answers for each of the questions and submit all question and answer sheets at Module “C” clinic that you attend.
- Print your name on each sheet.

# Video Clip 1

- **Scenario 1** – This is a local club game between two U14 teams with no history of issues. It is early in the match and there is no score
- **Scenario 2** – This is a tournament final and these two teams had a battle the previous weekend at another tournament. It is early in the match and there is no score.

# VIDEO #1 - OPTIONS?
